

Radically new IT solutions, with unparalleled cost-efficiencies, reliability and agility

Need the cost efficiencies, flexibility and agility of 'the cloud' and virtualisation? Ardenta's Hosted Environment Centre (AHEC) gives you just that, being built on industry-leading VMware vCloud technology and able to rapidly provide private virtual infrastructure to suit your requirements, 24x7. Our Private Cloud services include:

- Hosted virtual servers
- Tiered storage allocation
- Resilient Internet access
- Site-to-site VPN access
- Disaster Recovery option
- Backup and Recovery
- Monitoring portal
- Self-service provisioning via vCloud director

Reliability with constant uptime

Our server and application virtualisation allows you to eliminate planned downtime. It provides both data protection – including non-disruptive automated backup and restore processes – as well as disaster recovery that is hardware independent. Thanks to our expertise in cloud hosting, we'll guarantee a highly resilient and scalable solution. We'll make sure you'll

be able to deploy new software rapidly, scaling it in line with rising or falling demand. And we'll ensure enhanced reliability, performance and uptime. At the same time, your organisation will benefit from the most efficient use of available resources, with a significant reduction in costs.

Specialists: benefit from our Cloud experience and expertise

We've worked hard to build up our Cloud and virtualisation specialisation, gaining years of experience of VMware technology for organisations such as **AVX, Ladbrokes, William Hill** and others.

We work with you, to get the right result

Agility, reliability, reduced capital and operational expenditure – just some of the benefits we offer. With Ardenta's Private Cloud solution you'll also get maximum security, the ability to consolidate and centralise your IT and unlimited potential to increase access to data on demand.

Ardenta's professionals and technical experts work closely with you to put the right cloud solution in place. Based on years of experience across many platforms, we'll optimise your solution, including resilient storage, processing capacity, bandwidth and more. And we'll choose the right applications to bring into your new cloud environment.

Specialised in delivering optimum server solutions in the Cloud

Let us implement your organisation's Cloud and virtualisation solution. We've built up vast experience and capabilities in Private Cloud and virtualisation solutions, working with many customers who value our expertise.

Customers include:

- AVX
- Ladbrokes
- William Hill
- and others

What's in it for you?

- Highly agile, responsive and cost-effective IT solutions, with reliability, fast response times and strict SLAs.
- Flexible, scalable solutions for requirements of all sizes – with the ability to react quickly to business and seasonal fluctuations.
- Immediately available specialist technical skills from experienced industry-qualified technicians.

“We wanted to gain from the cost efficiencies and flexibility of the Cloud and virtualisation. Ardenta was able to deliver a global solution quickly and cost-effectively. We are impressed by the results.”

State-of-the-art data centres

At Ardenta, we have built up trust through years of experience with customers who benefit from our cloud and hosting solutions, within our new generation data centre environment.

Ardenta's capabilities include two data centres and disaster recovery sites. Fully

equipped to state-of-the-art standards, they offer comprehensive fire detection system, environmental control monitored by sensors, and much more. It means our services offer constant uptime, the best levels of reliability and performance with ongoing support and service, 24x7 all year round.

Best-in-class SLAs

All our Managed Services are underpinned by a Service Level Agreement (SLA) that forms the backbone of the services we offer you. This ensures that any technical problems you encounter are dealt with swiftly and efficiently, minimising disruption to the business.

All the elements set out in the SLA are measured and monitored in accordance with Ardenta's Quality Management System.

But more than that, our SLAs reflect our commitment and dedication to assisting and supporting our customers. We'll undertake to promptly meet your timescales, with proactive monitoring and support, the best project and migration management and rapid resolution of any issues arising.

The Ardenta difference – excellence through expertise

Founded over 10 years ago by highly skilled technicians, Ardenta's grassroots shape our culture of technical expertise and excellence today. Since our beginnings, we have flourished as a successful and growing IT consulting company, providing Managed IT Services, Hosting & Cloud Solutions and Professional Services.

Our culture of expertise and excellence helps us to deliver on our mission to ensure that customers' enterprise information systems are designed, implemented, managed and fully supported at optimum levels.

So why not get in touch and see how we can help maximise your systems?
